From The Desk of Principal

It gives me an immense pleasure to welcome you all at Tapi Diploma Engineering College Surat. I am really felt proud to be a part of this college and Shree Tapi Brahamcharya Sabha Trust was set up in 1924. Sabha has great visionary and dynamic trustees. We have a team of highly qualified, experienced and dedicated faculties and non-teaching staff who are devoted to achieve excellence in the every activity of the student. Our institution provides quality education to the students by improving their soft skills and technical knowledge according to the trends and needs of the industries through continuous improvement in teaching process. Training and placement is a considerable strength of our institute. Education helps a person to grow from helplessness and weakness to strength and self-reliance, from fears and self centered lives to courage and other centered lives, from darkness of ignorance to light and slavery to freedom. A person by his or her nature is called to serve others. Authentic growth is the consciousness of the self and other in the society. Each student should become fully human and fully alive is our sole aim.

Our institution thus plays a pivotal role, catering to the needs of all the stakeholders and proves to be a unique and promising platform for strengthening the essential qualities of students in all good will and spirit. The noble idea of our institution is to identify raw talents among the students and shape them into champions with imperishable knowledge to face the global challenges.

I wish all the students to get success in their life.
